THE CALL: Awakening the Angelic Human

By Toni Sar'h Petrinovich

ISBN 1-4010-7877X. Hardcover. 157 pp. 2002. Sar'h Publishing House. \$21.95. [Also as Paperback: ISBN 1-4010-7876-1.]

In *The Call: Awakening the Angelic Human*, Toni Sar'h Petrinovich writes about the modern-day search for wholeness, within and without, and clarifies many of our age-old questions. Do angels exist? Are there angelic humans? Is the search for the angelic a call from our souls to fulfill an interconnectedness that knows no physical bounds, but opens us to the discovery that this angelic "spirit" is already within us?—that there are angels in human form? She helps us understand the angelic realm, its purpose and focus and our possible agreement with it.

Toni Sar'h links the angelic realm, the principles that activate DNA in humanity, the connection between DNA and evolution, and describes for us the Angelic Human (AH). She shows us how AH have an attraction to the One Will, and how this intensified attraction manifests encoded differences within the Angelic Human's soul pattern. This magnetism further integrates the

individuated free will into the One Will, bringing the Angelic Humans into a mode of surrender and vulnerability. Within that vulnerability lives the potential for the greatest power: the openness which is the gap between breaths which brings the Angelic Human to the depths of the Heart—the Pulse of the Sophia—the Mother Creator.

Toni Sar'h reveals why this is the time of unfolding consciousness, how we can manifest this consciousness most easily, and what purpose Angelic Humans serve in the overall design of humanity's evolution. Not only is this a book of self-discovery, it is a primer for the activating soul who remembers a calling to this time and space to provide a portal through their ever-awakening consciousness for light, truth, and divinity to flow. - From the Foreword by Flo Aeveia Magdalena

ISBN 0-8356-0828-X. Paperback. 33 Black & White Illustrations. 336 pp. October 2004. Quest Books. \$17.95.

Buddha said he could move backward through time, observes theoretical physicist Fred Alan Wolf. Time travel is not just science fiction; it may actually be possible. Wolf draws on yoga and quantum physics to show that time is a flexible projection of mind. Cheating time, he says, is an ancient metaphysical idea from the Vedas having to do with moving through meditation to a place where time stands still.

In reader-friendly language, Wolf explores how time and thought are bound together and how a change in ego structure could allow freedom from time's limitations. And he elaborates on benefits: Time travel, he

asserts, could clarify our purpose; change our sense of self, the future, and death; and provide a hero's journey that might aid the entire community. Fascinatingly, Wolf thinks that, under certain circumstances, we might not only visit but even *alter* the past, with a ripple effect on the present.

About the Author: Fred Alan Wolf is author of *Taking the Quantum Leap* (Nat'l Book Award, 1988), *The Spiritual Universe*, and *Parallel Universes*.

"[Fred Alan Wolf's] new book, *THE YOGA OF TIME TRAVEL*, represents a giant leap toward a comprehensive worldview of the future integrating the best of modern science with the best of authentic spiritual traditions."—Stanislav Grof, M.D., author, *Beyond the Brain*, *The Cosmic Game*, and *Psychology of the Future*.

"Fred Alan Wolf is one of the most eloquent and clear scientists who explains the relationship between the laws of nature and consciousness. His book, *THE YOGA OF TIME TRAVEL*, will help you break the illusion of linear time and experience a domain that is eternal, timeless, and acausal. This experience helps conquer all fear including the fear of death and gives you a glimpse into the immortal nature of your soul."—Deepak Chopra, author, *Ageless Body*, *Timeless Mind*.

"I enjoyed reading this book, and you will, too. Simply put, it is one of the most imaginative books I have read about the nature of time. It makes us wonder if time travel is possible, not only through the use of technology, but through yoga, which anyone can practice."—Amit Goswami, author, *The Self-Aware Universe* and *Physics of the Soul*.

"*THE YOGA OF TIME TRAVEL* is a fascinating speculation at the intersection of hard science and fantasy. A must read for science buffs!"—Edgar Mitchell, Sc.D. Apollo 14, Founder: Institute of Noetic Sciences.

IN SEARCH OF P. D. OUSPENSKY: The Genius in the Shadow of Gurdjieff

By Gary Lachman

ISBN 00-8356-0840-9. Hardcover. 320 pp. November 2004. Quest Books. \$24.95.

P. D. Ouspensky's classic work *In Search of the Miraculous* was the first to disseminate the ideas of G. I. Gurdjieff, the mysterious master of esoteric thought in the early twentieth century who still commands a following today. Gurdjieff's mystique has long eclipsed Ouspensky, once described by Gurdjieff as "nice to drink vodka with, but a weak man." Yet Ouspensky was a brilliant, accomplished philosopher in his own right, and some consider his meeting with the charismatic "Mr. G." the catastrophe of his life. Indeed, in subsequent years Ouspensky tried hard, with limited success, to break away.

This book moves Ouspensky's own story center stage, against the backdrop of the Russian Revolution, the dervishes of Constantinople, and a cosmopolitan Europe *entre deux guerres*. The archetypal encounter it describes echoes that of Don Juan and Castaneda, or perhaps Mephistopheles and Faust. One of the great mystical adventures of our time, it will fascinate everyone interested in the farthest reaches of what it means to be human.

About the Author: Author of several books on the counterculture, Gary Lachman became known to Theosophical readers through his contributions to *The Quest* magazine.

"Gurdjieff and Ouspensky are two of the last century's great esoteric thinkers. Gary Lachman does a masterful job of telling the fascinating tale of the entangling of each of their lives. Written in an erudite and compelling style, Lachman brings to life the ideas of an entire era."—Leonard Shlain, author of *The Alphabet Vs. the Goddess* and *Art and Physics*.

"This is the classic book on Ouspensky we have all been waiting for."—Colin Wilson, author of *The Outsider*, *The Occult* and most recently, *The Atlantis Blueprint*.

The Song That Never Ended A Jazz Musician's Journey to a Love Beyond Life

ISBN 1-8921380-9-3. Paperback. Illustrated. 260 pp. June 2003. New Paradigm Books. \$16.95.

Jazz musician John Novella tells the story of how he lost his jazz singer wife Gloria to cancer, celebrated her life at a music-filled public life tribute, and found that she had never left him. His story will give heart to all those who have never ceased to mourn a lost loved one.

"This is not only a truly fascinating and well-written book, but a valuable contribution to the evidential literature about the Afterlife." - Prof. Dr. Hans Holzer, parapsychologist and author of 126 books.

"Of the afterlife contacts with his wife, Gloria, the evidence presented supports John's conclusion that she is still by his side." - *The Journal of Religion and Psychological Research*, Vol. 26, No. 4, October 2003.

"What makes this book work so well is its blunt honesty and approach to dying, and how it was for Gloria fighting breast cancer and her husband John trying to discover an alternative cure to save her life. There is much sadness and much joy in this book." - *Ghostvillage*, 2003.

START YOUR OWN RELIGION

By Timothy Leary

ISBN 1-57951-073-6. Paperback. 240 pp. Illustrated. March 2005. Ronin Publishing. \$14.00.

Religious, mystical, visionary possession states are powerful and wonderful—they open the doors of perception, polish our sensory lenses, and shake up the autonomous sensory system. They're intimate and precious and they shouldn't be imposed on others. When the power of the shamanic tripping is hooked to a confrontational monotheistic religious dogma, you're got the potential for major mind games.

Leary asks: "Who owns the Jesus Property?" What we have is a typical bunch of quarrelling Christian sects—exactly the same noisy cast of characters who have been profiting from similar theological battles for two millennia. They've bickered, century after century. They are hassling over the ownership of one of the most valuable properties of all time. Look at the

script: The birth in a manger. The walking on water. The loaves and fishes. The scourging of the money lenders from the Temple. The betrayal by Judas. The crown of thorns. The ever-popular Crucifixion Climax. The surprised ending Resurrection. It beats Indiana Jones, doesn't it?

Religion is the turn-on, tune-in, drop-out process.

In the 1950s, we began to see a new religious movement—Born Again Paganism—which is still going strong today. In *Start Your Own Religion*, Leary describes a do-it-yourself religion. Since God # 1 appears to be held hostage by the bloodthirsty Osama Bin Laden, by the memory of the telegenic Pope John Paul II, and by the Religious Right...there's only one logical alternative: Steer your own course! You and your dear friends must start your own religion.

The basic political unit is exactly the same as the basic spiritual grouping: The Clan.

You and your friends can do anything that the great religions and empires and racial groups have done in the name of their God. You can choose your Gods to be smart, compassionate, cute and goofy. Begin by creating a cult comprised of your family and friends. Then develop a personal mythology and write your own New Testament.

You are a God. Pray like one!

About the Author: Timothy Leary was a world-renowned psychologist, a West Point student, a defrocked Harvard professor, a relentless champion of brain-change, a stand-up philosopher, a Federal "criminal" and a counterculture guru. His charisma and radically humorous nature often captured the attention of the world. Some called him "the most dangerous man on the planet." Leary continues to be an inspiration for millions of freedom-loving and free-thinking people throughout the world.

Being Human: Exploring the forces that shape us and awaken an inner life

By Solihin and Alicia Thom
and Alexandra ter Horst

ISBN 0971317208. Paperback. 0.8 x 7.2 x 8.5. 192 pp. April 2004. Ad Humanitas Press. \$19.95.

Being Human offers a profound approach to understanding life. We may assume that we are human because we inhabit a human body, but there is a difference between our form and our content. Just as the body represents our form, our inner Self—our essence—represents our content. Each of us is shaped by life forces—material, vegetative, animal, and human—which exist within all of life. *Being Human* explores these forces and provides practical tools that enable us to understand not only why we often get stuck in ancestral patterns or other limiting thoughts and emotions, but also what resources we contain to move beyond them. On a higher level, it examines how our relationship with the life forces and ultimately with the Creator—Great Life Force—enables us to navigate our human journey with purpose and meaning. As we open to the Divine, our inner life awakens, and our outer actions become guided by our inner Self.

ABOUT THE AUTHORS: Solihin and Alicia Thom are co-founders of Ad Humanitas, an organization dedicated to furthering the humanity in all of us. They have over 30 years' combined experience teaching their Life Forces workshops in which they have helped thousands of people around the world gain a new perspective on their inner and outer lives. **Alexandra ter Horst** has studied the work of Solihin and Alicia Thom since 1995. She is currently vice-president of SymPoint Communications, a public relations company based in Asheville, North Carolina.

"Leading the reader rung by rung up the hierarchical ladder, the authors explore each of the life forces from the material self (our genetic blueprint) to the noble self, which seeks alignment with the Divine (the primary life force) and the essential qualities connecting them." - Foreword, April '04.

"In a world in which one's outer life often throws up obstacles and limitation to the unfolding of one's rich and inspiring inner world, Being Human provides the tools to dig out and transform self-defeating old patterns and ways of thinking, and presents a dynamic framework based upon archetypal forms and symbols through which new patterns of thinking and behavior can emerge authentically." - *The Journal, UK*, June 2004.

By Dr. K. Sohail, M.B., B.S., F.R.C.P.S. (C) & Bette Davis, R.N., M.N.

ISBN 0-9730949-9-0. Paperback. 192 pp. 2004. White Knight Publications. US\$14.95, Cdn\$21.95.

Love, Sex and Marriage is an intellectually stimulating dialogue between two psychotherapist friends who are fascinated with the mystery of intimate relationships they see in their everyday working life.

Throughout their book, they exchange views and challenge our cultural and religious biases. The writers believe that to have a humanistic attitude towards romantic relationships we need to build bridges between cultures, religions and genders.

In their letters, Dr. K. Sohail and Mental Health Lecturer Bette Davis share their personal observations, social experiences and professional insights about many aspects of human bonds including dating, marriage, divorce and sex education for the next generation. These letters will help readers to have a better understanding of human psychology to improve the quality of their intimate relationships and help their children make wise life choices.

Love, Stress & Sex

By Stephen Royal Jackson, Ph.D.

Use Stress to Liberate Your Love Life

ISBN 0966480945. Paperback. 81 pp. February 2005. SET Publishing. \$10.00.

"Two currents whose union is necessary to insure a completely normal attitude in love... failed to combine. These two currents may be distinguished as the affectionate and the sensual current."

It's been nearly a century since Freud wrote these words and yet they are as relevant today as they were then. In doing in-depth therapy with adults, adolescents, and children, Dr. Jackson saw how stress can injure our ability to fuse love and sex. He discovered how the stress of conflicts in love dating back to the earliest most vulnerable times of our life affects the quality of our adult love life.

The media is filled with stories of some of the best and brightest among us who were unable to unite the currents of affection (love) and sensuality (sex). Sex scandals have led the news for years. And the scandals have included an impressive array of the talented and influential: American presidents, TV evangelists, rock stars, and sports stars. Even Elvis, the man voted the greatest entertainer of the last century and the sexy heartthrob of millions of fainting females, had a problem fusing love and sex in his love life.

If more men and women could be hot for the one they love, there would be less debasing sexual behavior. There would be less of a need for prostitutes, internet-porn sites, extramarital affairs, or for incurring high credit card charges for phone sex. Deep therapy is not the only way to remove the blocks to a fulfilling love life. Taken from Dr. Jackson's clinical experience and from his seminars in Stress Effectiveness Training, this book is an application of key concepts found in 8 Steps to Love and in A Matter of Love. Are you ready to release your capacity and/or ready to help your love partner release his or her capacity for a more deeply fulfilling love life? If so, then this book is for you!

About the Author: Dr. Stephen Royal Jackson has been a stress specialist in the field of psychology for more than two decades. He received his doctorate in clinical and child psychology from the University of Virginia. Late in 1995, Dr. Jackson had a life-changing spiritual experience that led him to study ancient healing practices. Within a year, he decided it was time to leave the clinical practice of psychology to teach and write, and by the summer of 1998 he had founded SET for Life Seminars, Inc. Dr. Jackson lectures and conducts seminars throughout the USA and Europe. For nearly a decade, he has been using the deeply relaxing ancient healing art of Reiki to help people here and abroad find relief from stress and stress-related physical pain. Dr. Jackson has often appeared on national television and radio and he is a member of the Las Vegas Speaker's Bureau.

WORDS BECOME FLESH

True Stories of How Words Hidden in Your Heart Become the Flesh of Your Life

By Stephen Royal Jackson, Ph.D.

Words are the Seeds You Sow in the Soil of Your Soul

ISBN 0966480953. Paperback. 289 pp. May 2005. SET Publishing. \$16.95.

By day, Dr. Jackson had some bizarre cases: a former Hell's Angel with a phantom limb itch; a woman who discovers that she was a victim of satanic ritual abuse; a man whose sexual coming-of-age involves the film *Attack of the 50-Foot Woman*. His cases teach him that the words buried in your heart can become the flesh of all kinds of physical symptoms.

By night, Dr. Jackson had strange dreams....Or were they visitations from the spirit world? In these nightly encounters, he dialogues with spiritual masters who guide his soul's passage through what Jackson calls the seasons of the soul.

In the springtime of his soul, Jackson meets Rabbi Ben who teaches him about the Kabbalah. In the summer of his soul and on into early autumn, he meets with San Francisco who presents elements of the lost teachings of Jesus some of which were discovered with the Dead Sea Scrolls. After the leaves fall and the autumn of his soul is fully underway, he meets with Tacomi, a Tibetan monk; he teaches Jackson how to free his mind and awaken his heart. With winter came a surprise...

The spiritual masters teach Jackson that the words we think to ourselves and say to others are the seeds we sow in the garden of our soul. Our words determine whether this sacred garden flourishes with flowers or withers with weeds. From the depths of human suffering found in the therapist's office to the heights of spirituality, Jackson reveals the impact that your words have not only on the quality of your life, but on the condition of your soul.

A MATTER OF LOVE

A Fascinating Journey about Following and Fulfilling Your Divine Destiny

By Stephen Royal Jackson, Ph.D.

Provides a Formula for Finding Ultimate Freedom, Peace, and Happiness

ISBN 0966480937. Paperback. 295 pp. May 2004. SET Publishing. \$16.95.

"We are at a critical juncture in human history. For the Maya, we are about to enter an era where the heart of humanity can awaken from a dark period that began a little over 5000 years ago. However, the Maya taught me that it is up to each and every one of us to awaken our heart if we are to successfully usher in a new era of greater freedom and peace."

—from *A Matter of Love*

Dr. Stephen Royal Jackson takes you on a journey from ancient sacred sites of the Maya found in the jungles of Guatemala and Mexico to the shocking news stories he discussed on national television and radio. He reveals how your divine destiny leads to ultimate freedom, peace and happiness.

Drawing on his media appearances, Dr. Jackson unmasks evil. He exposes the emotional basis and psychodynamics of evil. To this end, he discusses Andrea Yates, the Houston mother who murdered her five children; Nathaniel Brazill, the 13-year-old boy who murdered his teacher; genocidal terrorist, Osama bin Laden; and serial sniper John Muhammad. Dr. Jackson helps us see beyond the rationalizations of political and religious rhetoric into the heart of evil.

- ✓ Learn how to harness hate so you can help reduce evil in the world;
- ✓ Discover your destiny through the daily dialogue with the Divine;
- ✓ Expand your horizons by thinking outside the box of ordinary reality;
- ✓ Do your part to cleanse humanity's heart of collective anger and fear.

In *A Matter Of Love*, Dr. Jackson operates in the tradition of the father of American psychology, William James, who investigated the varieties of religious experience. Like James, Jackson considers himself an empiricist and a pragmatist—truth is what you see and what works. Dr. Jackson expands the spiritual psychology he first presented in *8 Steps to Love*.

How To Manage Your DICK (Destructive Impulses with Cyber Kinetics)

By Sean Joseph O'Reilly

ISBN 1580083501. Paperback. Cartoons and Diagrams. 336 pp. September 2001. Auriga Publishing Group. \$15.95.

How to Manage your what? That's right, your DICK. How To Manage Your Destructive Impulses with the Cyber-Kinetic energy of the soul is one of the most unusual concepts you will ever encounter. It is also one of the most important. This is the book that might have saved Bill Clinton and other politicians from personal and political chaos.

Author and editor Sean Joseph O'Reilly presents ideas about energy, moral development, and sexual management that will revolutionize your life. Our society emphasizes concepts like time and resource management, but for the most part ignores one very important kind of management: DICK Management. An ecology of personal energy use that studies destructive, testosterone-driven impulses from the perspective of metaphysics and science, DICK Management is a new discipline that will teach you how to redirect your sexual energy and discover your more spiritually enlightened, dimensionally evolved self. This is an extraordinary new guide to the soul. It's about finding your own personal life ethic—not just saying “no” or suppressing your desires but rather about saying “yes” to something larger than the tunnel vision of the Cyclops in your pants.

About the Author: Sean Joseph O'Reilly is an emerging leader in the rapidly evolving field of personal development, life improvement, spirituality and travel. An editor of many award-winning books including *The Road Within*, *Testosterone Planet*, *The Ultimate Journey: Inspiring Stories of Living and Dying* and *Pilgrimage: Adventures of the Spirit*, he is a thought-provoking and energetic professional speaker. He has a degree in Existential Phenomenology and is a former associate of New Age pioneer George Simon.

“If a few hundred guys throughout history would have had the benefit of Dick Management, the world would be a much better place.”—Thom Elkjer, author and playwright.

*“...More than just a quirky title; it's a heartfelt and remarkably comprehensive manifesto, drawing on wisdoms from East and West, about how not to behave like an absolute jerk.”—Anneli Rufus, author of *Magnificent Corpses*.*

*“Magnificent!”—David Yeadon, author, *The Way of the Wanderer*.*

*“Destined to be a classic...you need to read this book.”—David Rothenberg, author, *Is It Painful to Think?*, editor, *Terra Nova*.*

“It's bold, it's brazen, it's provocative. And that is just the title.”—Publishers Weekly.

*“Sigmund Freud was wrong on a lot of things, but he was right on this one—genitalia are at the root of the most important passions. Sexuality is the indispensable home plate of the human soul.”—Howard Bloom, author of *The Lucifer Principle: A Scientific Expedition into the Forces of History*, and *Global Brain: The Evolution of Mass Mind from the Big Bang to the 21st Century*.*

THE PARTHENON CODE MANKIND'S HISTORY IN MARBLE

By Robert Bowie Johnson, Jr.

ISBN 0970543832. 7 x 10 Paperback. 251 Black & White Illustrations. 288 pp. June 2004. Solving Light Books. \$29.95.

The Parthenon Code reveals, for the first time in 2,000 years, the meaning of the seven sculptural themes on Athena's temple. A simple but hidden artists' code, expressed on vase-paintings and the Parthenon sculptures, leads to the astonishing truth that Greek myth/art chronicles in great detail the reestablishment of the way of Cain (Cain) after the Flood. The events of Eden were part of the Greeks' collective cultural memory, and their special interpretation of those events made up the very basis of their religious system. Greek myth/art is human history. The Book of Genesis is human history. While the viewpoints of each are opposite, the recounted events match each other in convincing detail.

The Greeks knew exactly who Noah was. They called him Nereus, the “Wet One.” While it is true that the Greeks built the Parthenon to glorify the

serpent-worshipping Eve of Genesis, it is also true that they built it to celebrate their "victory" over Noah and his God.

"Sitting in the shade of the Acropolis in Athens and looking up at the Parthenon while reading it, the book made complete sense of the way ancient Greek artists communicated in a layperson's language....[The Parthenon Code] is in a rare class of literature that can be classified as the beaconing light to understand humanity." - *New Europe/The European Weekly*.

"One of the most original, engaging, thoughtful, and thought-provoking works....an iconoclastic, mind-stimulating, and strongly recommended read." - *The Midwest Book Review*.

"The most original book of the decade, if not the last fifty years." - Ron Pramschufer, *BooksJustBooks.com*.

"This is the book the thinking Christian community has been waiting for." - Ian T. Taylor, *Creation Moments*.

**LIGHT VISION:
Simultaneous Dimension
Series, Book One** By Coco Tralla

ISBN 0-9752659-0-3. General fiction. Case bound, gilded edging, ribbon bookmark, crackle glaze design cover, recycled paper. 322 pp. December 2004. Tralla Publications. \$25.00.

Known for contacting legendary and famous spirits, Coco Tralla uncovers a wisdom of hidden secrets. From the missing papers of Tesla to the hidden Scrolls of Aradia, Coco's Novels of Lost Knowledge unravel mysteries that have been intentionally kept from the public for centuries. These REALITY FICTION™ books portray mysterious people and exotic places that may seem unbelievable, yet are actually real-life situations with a fictional storyline.

Light Vision: Simultaneous Dimension Series, Book One imparts the lost knowledge of light and perception, especially the phenomenon some people describe after dying and being resuscitated as "going through the light." Through expanding our vision, we can access this latent ability within us all called "the sight." In the layers of antiquity Italians call underground Rome, Diana DeMarco's life becomes jeopardized by witches and magick as the life-threatening rituals of Italian witchcraft shock her "sight" into awakening. In *Light Vision*, we experience the ancient magick of Aradia the Holy Strega, a revered healer who practiced witchcraft in the hills of Aradia, Italy. Known as the founder of witchcraft, she documented her beliefs on nine scrolls. The scrolls, which became known as the lost Scrolls of Aradia, were confiscated when the Roman Catholic Church imprisoned the Holy Strega during the Inquisition.

Only available in case binding with ribbon bookmark and gilded edging, *Light Vision* will not be published in paperback or typical hardback because the ancient look and feel of the seven books create a wavespell.

Ancient magick teaches us that time is a wavespell. A wave is a motion of time, while a spell is that which can be cast, known or experienced during that time. Accordingly, the book binding of the seven books initiate a wavespell to impart the lost knowledge. With its heavy crackle glaze cover and soft, leather-like binding, the ancient feel of the Novels of Lost Knowledge create a New Time to heal earth and humanity.

Light Vision: Simultaneous Dimension Series, Book One was released in December 2004. *Energy Grid: Simultaneous Dimension Series, Book Two* will be released in December 2005. The remaining books will be released yearly until 2012. Then sequels to each book will be released, which will be called the Fifth Dimension Series.

Light Vision prepares readers for the second book of the series, *Energy Grid*, because it shows us that light, including physical reality, is more than just what we see.

**ENERGY GRID:
Simultaneous Dimension
Series, Book Two** By Coco Tralla

ISBN 0-9752659-1-1. General fiction. Case bound, gilded edging, ribbon bookmark, crackle glaze design cover, recycled paper. 350 pp. **Scheduled for Publication December 2005.** Tralla Publications. \$25.00.

Mysterious People, Exotic Places—REALITY FICTION™ books are novels about people and places that seem unbelievable, yet they exist in our world today. Known as the Novels of Lost Knowledge, these stories reveal secrets that have been kept from the public for centuries.

Energy Grid: Simultaneous Dimension Series, Book Two contains the lost knowledge of the etheric and magnetic fields of the earth, including ball lightning. It imparts the lost knowledge of Earth's mysterious ley lines. These invisible gridlines of energy can help us access the latent ability within us all called "the sight."

In the English countryside, Omar Weizman awakens his "sight" when he discovers crop circles and ancient sites being used as communication devices by other universes.

On September 11, 2001, ball lightning, a scientific phenomenon Omar Weizman had studied for years, shot out from the fuselage on the far side of the cabin. His pulse quickened as the orb whizzed by and disappeared through the fuselage next to him. Leaning forward, he caught a glimpse of the orb darting through the clouds just outside his window. Whipping through the wispy clouds, it vanished.

Omar turned away from the window to catch sight of another ball lightning, this one twice the size, surge from the cockpit and head straight toward him. He closed his eyes—then opened them to see a jet wavering above him as if making an emergency landing. But before it could land, Flight 93 imploded into pieces in midair and Omar's mind slipped into a void.

Four years later, Omar awakened from a comatose condition to hear the full story of 9/11—and to realize that his Hebrew/Muslim descent and the tapes of him boarding Flight 93 had made him a suspect...

Gratitude Works is more than a pretty book to set on the shelf—it's a book to be used. This collection of 365 short stanzas explores what we have to be grateful for in our lives. Each day focuses on one main thought, and the four lines that follow expand on that thought. The book can be read from beginning to end or opened at any page and used as a daily guide. It takes you through the seasons of the years month by month and inspires you to think of the things in your own life that you are grateful for.

Gratitude Works helps us stay in the present moment by being grateful for what we have now, rather than dwelling on the past or dreaming into the future. It helps us learn to stop taking so much for granted. It reminds us to give thanks before our prayers are answered, knowing that the blessings will come. When we realize how much there is to be thankful for and recognize the ways we are already blessed, we feel closer to God. When we feel gratitude for each moment, we enrich our souls.

The Pleasures and Principles of Partner Yoga

By Elysabeth Williamson

ISBN 0-9747383-0-1. 9 in x 11 in Hardcover. Full-Color. 272 pp. August 2004. Wisdom Arts Publishing. \$29.95.

Partner Yoga is a newly emerging practice that expands the traditionally individual science of yoga into the realm of relationship. In traditional yoga practice, a person places his or her body into specific postures while focusing on breath and body alignment. Designed for two or more people, Partner Yoga postures utilize the forms and principles of individual postures while incorporating the presence of another to deepen the impact of the pose. In Williamson's style of Partner Yoga, there is no giver or receiver in a posture; thus all partners are fully engaged in their own experience.

The Pleasures and Principles of Partner Yoga is a synthesis of ancient and modern yogic techniques that focus on both self and relationship development. The book presents simple to advanced partner and group practices that are ideal for those with or without prior Yoga experience. Over 60 practices are presented in eleven principle-based chapters.

The book is innovative in both content and design, using the latest Photoshop® techniques to transform over 300 photographs into the appearance of fine hand-drawn images. Each chapter begins with an inspirational essay accompanied by a dramatic full-page color image. Throughout the book, Williamson captivates and inspires us to move beyond self-imposed limits to a richer experience of the heart, mind and body.

A Selection: "Our world is changing at a pace with which we can barely keep up, yet the truth of the healing power of love has remained the same since the beginning of time. As technology advances, we are increasingly isolated and starved for meaningful human contact. Partner Yoga provides powerful tools for connecting with our humanity—tools that empower us to create and sustain peaceful relationships and communities."

- from *The Pleasures and Principles of Partner Yoga*

THE SOVEREIGN SOUL Sufism: A Path for Today

By Phillip Gowins

ISBN 978-1-892138-10-1. Paperback. 230 pp. 2005. PRE-PUBLICATION COPIES AVAILABLE. New Paradigm. \$16.95.

The aim of the 1,500-year-old spiritual tradition of Sufism, it has been said, is "the elimination of all veils between man and God." In June 2004, Sufi Master Pir Vilayat Inayat Khan died peacefully at his home in Paris, France. As leader of the Sufi Order International which first brought Sufism to the West in 1910, Pir Vilayat had spent more than 40 years teaching this and other truths of Sufism to audiences in the U.S., Europe and Asia.

For 25 years, Sufi teacher Phillip Gowins was able to take advantage of the many visits of Pir Vilayat to the United States. Thus *The Sovereign Soul: Sufism: A Path for Today* is a homage to the Master, providing as it does an introduction to the ancient stream of wisdom embodied by Sufism—but present in other religions and humanistic philosophies as well—that Pir Vilayat was able to impart to students around the world.

The Sovereign Soul is also a description, always concrete, often humorous, of the mystical path that Phillip Gowins himself has pursued over the years. With many examples and exercises, he shows us how we can practice the spiritual life ourselves. The path he lays out is strewn with pitfalls and pleasures alike. He tells us how we can avoid the one and enjoy the other—and attain to love and self-mastery in the increasingly dangerous 21st century.

A Selection: "Let's return to one of the practices I was describing above: *Imagining yourself as you would be if you had completed the work of the mystic. See if you can actually think of yourself as the mystic who is before you or in your mind's eye. It will seem to you that such a person has certain powers of manipulation that you presently do not. What would you do with these powers if you had them? Where would your responsibilities lie? Let's try another tack: What would the mystic be thinking about? What would he or she be contemplating? How do such persons regard their fellow beings? This quote from Murshid provides a hint: "When we judge others, we are certainly judging the Artist who has created them. If we realized this, it would not be difficult to feel the presence of God everywhere."* - from *The Sovereign Soul: Sufism--A Path for Today*.

ABOUT THE AUTHOR: Phillip Gowins was born in Minneapolis, Minnesota, in 1945. He has been a cabinetmaker since 1980. In 1979 he met Pir Vilayat Inayat Khan and shortly thereafter was inducted into the Sufi Order in the West. A teacher in that order, he runs a Sufi Center at his home in Yonkers, New York, with his wife, Majida, who is also a teacher. Her daughter, and their grandchildren, live with them.

CONVERSATIONS WITH ETERNITY

The Forgotten Masterpiece of Victor Hugo

Translated with a commentary by
John Chambers, with an
introduction by Martin Ebon

ISBN 1892138018. Paperback. Illustrated. 262 pp. November 1998.
New Paradigm Books. \$13.95.

"Compared to the soul-destroying banality of most séance texts, the Marine Terrace corpus is a literary masterpiece, the unconscious product of a naturally dramatic mind" (Graham Robb, *Victor Hugo: A Biography*, 1997). From August 1853 to December 1855, while in political exile at Marine Terrace, his home on the Channel island of Jersey, the famed author of *Les Misérables* participated in numerous "table-tapping" séances.

At least 115 "spirits" communicated with him, his family and fellow political exiles. The group of alleged discarnate entities included the illustrious dead such as Shakespeare, Plato and Galileo; legendary animals like Balaam's Ass and the Lion of Androcles; entities who claimed never to have been alive, like the Shadow of the Sepulcher and Death; a series of abstract concepts with names like 'India,' 'Metempsychosis,' and 'Ocean,' and aliens from the planets Mercury and Jupiter. The first translation ever into English of the transcripts of the most important of these séances, with an introduction by Martin Ebon setting Hugo's channeling experience in its historical context.

Ask to see prepublication chapters of our greatly revised and expanded second edition due out December 2005. This second edition will contain six new chapters:

- √ "Was Victor Hugo a Grandmaster of the Priory of Sion?";
- √ "Victor Hugo and the Cabala";
- √ "Kossuth's Revolution: When the Tapping Tables Spoke Hungarian;"
- √ "Other Voices, Other Rooms: Romance and Tragedy of Adèle Hugo;"
- √ "Comparing Victor Hugo, William Blake and James Merrill: From the Masters, New Truths about Channeling;"
- √ "Return of the Shadow of the Sepulcher: The Reappearance of Hugo's 'Main Spirit' in 1920's France and 1990's Italy."

Most of the chapters in the first edition will remain but some will be shortened or combined. There will be significantly more interpretation of the channeled material of each chapter. A new appendix will contain the full text of a one-act play channeled from "William Shakespeare" in 1854.

"Quite a surprise, quite a delight." - *The Anomalist* (Best Books of 1998)

"This is a total adventure, and I would have given my eye-teeth to be there."
- NAPRA Review

"Strangely alive, pregnant with a timely spiritual urgency." - *Fate*

"Challenging, memorable, poetic utterances abound." - *Foreword*

"The best book on channeling in years." - *Fortean Times*

The Ancient Museum of Dream: Discoveries of a Dream-Artist

By Clyde Anthony and Carolyn Frances

ISBN 1-4184340-0-0. Paperback. Illustrated. 241 pp. June 2004.
Authorhouse. \$17.50.

This book is a collection of works, of discoveries, gleaned from Clyde Anthony's dreams and visions. It is more than that: Through Carolyn Frances, it is a communication with a consciousness that comes directly from the realm of dreams and visions, a conscious awareness that proclaims the power of these dreams and visions and bears witness to their place in human history. This conscious awareness also testifies to the worth of those communications in the human search for meaning—a search that is borne on the shoulders of the abilities of individual persons but derives its strength from that species that we call Human.

The Ancient Museum of Dream: Discoveries of a Dream-Artist is an affirmation of that search, a testimony to the fertility of humankind's inner life and consciousness which, though it may be fueled by beliefs, is found in life's fecund ground of being itself and springs directly from that great source of being.

No other book goes as deeply into this direct experience, which is the very dance of Earth itself, the apprehension of life's power at its very source. One of the many communications:

"Past on memory-sky, seed of Creature Universe moving the black winds of centuries to come. Oh creature, Human, great gifts you bear on the vastness of time. Together, Earth- and Human sings the life, proclaiming its destined desires, dancing through space, hungry for the knowledge-truth, who are we. We come together to light the spark in the dark hours of time."

About the Authors: Clyde Anthony and Carolyn Frances view their dreams as dwelling somewhere between fiction and non-fiction, fusing both perspectives creatively. Therefore, their book is not fiction but a partial account of their creative life-pursuit. It is a collection of works, including discoveries gained through Clyde Anthony's dreams and visions. His vision work is from a uniquely individual perspective. He follows no pathway of beliefs, instead listening to his body's energies and gauging their role in his vision experiences. He seeks out the inner wisdom of those vision experiences both as ancestral language and as new creations, all the while searching through the states of waking, sleeping and all gradations in-between—in both the ancient past and the future—to meld together this unique human triad of creative awareness.

"Many thanks for The Ancient Museum of Dream, a most original title for a most unusual book. There are enough ideas, feelings, quotes, insights and just remarkable perceptions, in many creative ways, to keep me intrigued for a long time indeed. Beautifully put together, with evocative illustrations that show their own unique truths." - Robert F. Butts, co-creator, the *Seth* books.

"Their journey through the dream-world shows the reader the importance of such travels. The many issues they touch upon reveal the universal questions of beingness. I loved it." - Kim Burgess, Ph.D., anthropologist.

In Search of the Unitive Vision

Letters of Sri Madhava Ashish to an American Businessman, 1978-1997

Compiled with a Commentary by
Seymour B. Ginsburg

ISBN 1-892138-05-0. Paperback. 304 pp. Illustrated. 2001. New Paradigm Books. \$19.95.

1 A How-to Manual: the Antidote to Parmalat and Enron.

Chicago-born Ginsburg was a successful American entrepreneur, the co-founder of Toys-'R-Us, before he met Sri Madhava Ashish. His relationship with the guru brought home to him the necessity of tempering business practices with humanity and justice.

2 A Primer of Esoteric Literature. The decisive influences on Sri Madhava Ashish were Vaishnava, Theosophy, and G. I. Gurdjieff. In five essays reprinted in full in this book, the Scots-born, adoptive-Indian monk eloquently conveys the essence of Vaishnava. Moreover, in detailed narrative threads running through the book, Seymour Ginsburg provides basic information on G.I. Gurdjieff's Fourth Way and H.P. Blavatsky's Theosophy. All of this material, taken altogether, constitutes a rarely-seen, comprehensive, basic introduction to esoteric literature.

3 A Uniquely Brief, Comprehensive Introduction to Gurdjieff.

Mr. Ginsburg's account is developed in such a way that readers knowing nothing about Gurdjieff at the beginning of *In Search of the Unitive Vision* will know how to read with understanding Beelzebub's Tales to His Grandson by the time they've finished.

4 Casts New Light on Theosophy in India in the early 20th century, particularly in its account of the lives of theosophy leader Dr. G. N. Chakravarti and his wife Monica (prior to her becoming the Vaishnava monk Yashoda Mai), and the foundation and growth of Ashish's Mirtola ashram under the guidance of Yashoda Mai and the England-born Sri Krishna Prem.

"[Madhava Ashish was the] last English saint....came to India to repair spitfires, stayed to tame the inner fire." - *This Week of India*

"Ginsburg is able to create an atmosphere of the palpable presence of the master by providing quotations from his letters and articles." - Jagdish C. Nautiyal, Ph.D., Professor Emeritus, University of Toronto

"[Ashish's] responses, always full of insight and sometimes wry humour, throw an impartial light on theosophy, the Gurdjieff Work and Indian spirituality." - Ravi Ravindra, Chair, Comp. Rel. Dept., Dalhousie University.
